

MANY KILLED IN BIG CLOUDBURST

TWO TOWNS ARE WIPED OUT; 22 ARE KNOWN DEAD

Roads Washed Out and
Rescue Workers Find It
Impossible to Reach
Stricken Area Near John-
son City, Tenn.—News-
paper Men on Way to
Ascertain Extent of Dis-
aster.

(By The Associated Press.)
JOHNSON CITY, Tenn., June
14.—At least twenty persons
are dead and probably many
more, in a terrific cloud burst
that early today wiped out the
towns of Carters Bluff and Hun-
ter, near here.

Incomplete telephone reports
from nearby points said that
the two towns had been wiped out.
Roads have been washed out and
it is impossible to approach the
vicinity, it is said.

Within an hour after the first
calls were for aid were received.
Efforts were being made by relief
workers to reach the scene. Sev-
eral bodies are reported to have
been recovered.

The known dead, according to
telephone reports here, are twelve
at Carters Bluff and at least ten
at Hunter.

The country struck by the
cloud burst and flood is very
rough and difficult to penetrate
in good weather. Every available
newspaper man in Johnson City
has been sent to the territory to
try to ascertain the extent of the
disaster.

All communication lines are down
to Carden and Hampton, Tenn., which
appeared to be in the storm area.
The cloud burst arrived as a climax
to a day of heavy, intermittent rains
swelling streams already raging tor-
rents and sweeping everything before
them.

No word received from Fish Springs
and Butler, Tenn., good sized villages
believed to be in the center of the
devastated area.

Concrete bridges were tossed aside
in the highways and the approach
is reported badly damaged between Fish
Springs and Mountain City, Tenn.
This division runs from Bristol, Tenn., thru
Elizabethton and Butler to Mountain
City.

The stricken area is partly trav-
ersed by two branch line railways, both
of which are badly damaged, and by
highways which are not the best in
dry weather and now no longer exist.
Relief parties are unable to penetrate
farther than the edge of the storm
area except on foot.

Bob Meusel and Bert Cole Suspended For Part In Riot

(By The Associated Press.)
CHICAGO, June 14.—President
Johnson of the American League, to-
day suspended Bob Meusel, outfielder
with the Yankees, and Bert Cole, New
York pitcher, as a result of the New
York-Detroit game, which broke up in
riotous disorder yesterday.

DEATH OF MRS. HUDGINS

Mrs. F. P. Hudgins yesterday re-
ceived a message from Lexington,
N. C., informing her of the death of
her mother, Mrs. A. H. Spencer,
at the age of 60 years, following a
long decline in health. Deceased was
the widow of W. R. Hudgins, who
was survived by four children: Mrs. W. R.
Spencer, Lexington; Mrs. H. H. Spencer,
Winston-Salem; Y. B. Spencer, Lexington;
and Mrs. Hudgins of this city, also eleven grandchildren.

The remains will arrive Sunday af-
ternoon on number 26 and be buried
at Green Hill cemetery where services
and interment will be made.

MORE JAPS SAIL FOR U. S.

(By The Associated Press.)
TOKIO, June 14.—All the Japanese
exclusion act becomes effective here
has been accompanied and will sail to-
day and tomorrow.

REST ROOM IN LEELEND ANNEX NOW ASSURED

Establishment of a rest room with
adequate facilities for seating moth-
ers and children in the main section
of the Leelend Annex, is assured as
result of action taken yesterday even-
ing by the directors of the Chamber
of Commerce in monthly session. For
some time it has been recognized
that the rest room on the second floor
of the Holland building is not ade-
quate and not quite accessible enough
even though due recognition is given
the service it has performed of recent
years, especially to people from the
country in Danville to do their shop-
ping.

MOTHER FORCED TO STAND BY AND SEE 2 CHILDREN PERISH AS HOME BURNS

(By The Associated Press.)
LURAY, Va., June 14.—How a
mother was forced to stand by
powerless and watch her two
young children burn to death,
was told in dispatches received
here today from Honeyville, ten
miles south of Luray.

Mrs. Jack Alger had locked the
children, aged three and
four years, in their home when
she went to Stanley, several
miles distant, to purchase some
household necessities. Upon
her return she found the house
afire. Her husband, Jack Alger,
was told in dispatches received
here today from Honeyville, ten
miles south of Luray.

Mrs. Alger had locked the
children, aged three and

miles distant, to purchase some
household necessities. Upon
her return she found the house
afire. Her husband, Jack Alger,
was told in dispatches received
here today from Honeyville, ten
miles south of Luray.

The police also recovered two sto-
len automobiles which are believed
to have been used by the ten men who
participated in the hold-up. The rob-
bery occurred in the day time on a
busy street intersection just after a
taxicab driver believed by the police
to have been in league with the band-
its had begun an altercation with
the traffic officer, on duty.

The prisoners are Edward Diamond,
21, alleged to be out on \$25,000 bail
in connection with the robbery of a
silk truck, John Monforte, 24, said
to be out on \$25,000 bail pending
hearing on a hold-up charge, and
John Diamond, 22.

The police also have questioned a
fourth man on whom were found a
\$1,000 watch and several jewels.

The mail pouch contained 29 pack-
ages of unset diamonds, other pre-
cious stones and watches, consigned to
jewelers.

MAKE 3 ARRESTS IN N. Y. \$100,000 JEWEL ROBBERY

Police Also Recover Cars
Used By Ten Men Who
Staged Hold-Up

(By The Associated Press.)
NEW YORK, June 14.—Three men
two of whom the police say are out
on bail in connection with charges
concerning other hold ups were ar-
rested early today in connection with
the robbery of a pouch containing
\$100,000 worth of jewelry from a
truck last Tuesday.

The police also recovered two sto-
len automobiles which are believed
to have been used by the ten men who
participated in the hold-up. The rob-
bery occurred in the day time on a
busy street intersection just after a
taxicab driver believed by the police
to have been in league with the band-
its had begun an altercation with
the traffic officer, on duty.

The prisoners are Edward Diamond,
21, alleged to be out on \$25,000 bail
in connection with the robbery of a
silk truck, John Monforte, 24, said
to be out on \$25,000 bail pending
hearing on a hold-up charge, and
John Diamond, 22.

The police also have questioned a
fourth man on whom were found a
\$1,000 watch and several jewels.

STAGE FLAPPER WED

Francine Larimore, who won fame
as the creator of stage flapper role,
was as willful in love off stage as on.
Eighteen months ago, it was re-
ported she married Con Conrad,
composer, and kept it secret from
her closest friends.

(By The Associated Press.)
PERKINS, June 14.—A queer
American captured by river
pirates in Kwangsi Province, late
last month, has escaped from the
mountain stronghold where he
was taken, said advice received
today from the commander of
the American Gunboat Cam-
paign, sent to Wuchow in connec-
tion with the capture of Ray and
others.

Ray was one of a party of four
aboard a motor boat on the way
to Kweichow to rescue mission-
aries, when he was captured by
pirates because of fighting be-
tween Kwangsi and Kwangtung
troops. The pirates blindfolded
all four and took them to the
mountains for the moment.

Later, the pirates of Toronto, and
Dr. H. G. Miller, an American,
were released to take the pirates
demand for a heavy ransom to
the captives friends.

Further Grim Details of Dis-
aster on Battleship Which
Claimed 48 Lives—Testi-
mony Offers Vivid Picture
of Fate Which Overcame
Men.

(By The Associated Press.)
SAN FRANCISCO, June 14.—
Further grim details of the turret
blast which killed 48 men aboard
the dreadnaught Mississippi last
Thursday and injured a dozen others,
were given today by a member of
the naval board of inquiry in-
vestigating the disaster gathered for
their second session on the stricken
battleship today.

A vivid picture of the fate which
overtook the fighting men of turret
No. 2, while the guns of their ship
and two other vessels roared at a
target on the San Clemente, was
given in testimony offered during yester-
day's session.

The testimony of Captain W. D.
Brotherton, commander of the Mis-
sissippi, emphasized the steady with-
standing of the ship during the
blast, which resulted in the death of
48 men and injured a dozen others.

Down in the engine and fire rooms,
the "black gang" stayed with their
jobs, realizing fully a further exploit-
ation of their duty to the ship.

Deadly fumes from the turrets were
sucked down into their compartment
by the forced draught ventilating sys-
tem and several men temporarily were
overcome.

Later, those men were relieved by
another crew, every man of which
knew what had happened in turret
No. 2 and that fire might at any
moment reach and explode the for-
ward magazines a few feet away from
where they must work.

"It was navy stuff, that's all," said
Lieut. Carl E. Weincke, engineer of-
ficer of the Mississippi. "The spirit
of the ship is big."

Tomorrow will be a day of mourn-
ing in several southern California ci-
ties and Tuesday, the day tentatively
set for the funeral of the victims,
will be marked by solemn
services in which civilians will join
with men and officers of the fleet in
paying homage to the men who died.

What promises to be an impressive
ceremonial, will take place on Mon-
day night at nine o'clock when the
Danville Ku Klux Klan will hold a
naturalization ceremony at Ballou
Park following a parade of the
Knights of Danville and the sur-
rounding area.

Elsewhere appears a formal
advertisement of the meeting to
which the public has been invited.
While difficult to obtain authentic
information it is currently reported
here today that the spectacle of the
parade up Main street will be an im-
posing one and will be made up of
white robed hoodlums as well as men
of color and women and that the
strength of the parade and those
participating in the naturalization
ceremony will be both impressive and
improving.

HERRIOT AGREES TO FORM A NEW FRENCH CABINET

Head of Left Bloc Accepts
Invitation of President
Domergue

(By The Associated Press.)
PARIS, June 14.—Edouard Herriot
leader of the radical party and head
of the left bloc who was victorious
in the recent parliamentary elections
today accepted the invitation of Presi-
dent Domergue to form a ministry.

The conference between President
Domergue and the heads of the sen-
ate and chamber of deputies were fol-
lowed immediately by the summoning
of M. Herriot, who accepted the in-
vitation he refused at the hands of
former President Millerand. He has
been working on his ministry during
the presidential fight.

Confidence in M. Domergue was the
keynote of the morning press com-
ment, even in those newspapers which
opposed his election. One passage
from his speech, delivered after he
was invested with power at Versailles
yesterday was quoted in almost every
article.

"The national assembly," he said
"can be assured that no one will show
more respect for the constitution than
I, that no one more than I will remain
above parties to bring about a har-
monious settlement between them and
that no one more than I will draw in-
spiration from the will of parliament, which
is the expression of national sovereignty."

Lightning Kills
Horse But Rider
Is Only Injured

Reports of another case in
which lightning played a queer
trick, came from Yancyville.
Yesterday afternoon lightning
struck and killed a horse which
Robert Wemple, colored, was rid-
ing, but Wemple himself was un-
harmed, although he was
patently shocked and
Wemple's clothing was burned
from his back, one of his shoes
was torn off, and his hair was
burned, when the bolt struck. The
horse was almost instantly killed.
Wemple had gone to store to
purchase a flour sack and was on his
way home, when the storm over-
took him.

Announcement was made this af-
ternoon of an attractive gift to Hilltop
by the Garden Planning Committee of
the Garden Club. A handsome bird
bath and fountain to the patients and
the Garden Club, which is beautifying
the grounds plans putting it in the
center of the building and the high road.
For the patients it will be attractive
watch the birds of the neighborhood
bathing in the miniature pool and
the fountain will help in adorning the
grounds when the beautification work
is complete. The chairman of the
Garden Planning Committee this af-
ternoon expressed grateful thanks for
the gift and at the same time ex-
pressed the hope that the patients
who have offered to do the nec-
essary plumbing work in installing
the fountain at cost price.

Auto Wreck Is Fatal to 2 Men

(By The Associated Press.)
CULPEPPER, Va., June 14.—The
bodies of J. R. Yate, 68, well-to-do
farmer of near here, and Simon Nash,
18, his farm assistant were brought
here today from Charlottesville where
they died in an automobile accident
when their automobile turned
over near Crooked Run. Both men
were pinned beneath the machine.
They were given first aid treatment
here and then were taken to a hospital
at Charlottesville but died en-route.

DEER INCREASING

SAN FRANCISCO, June 14.—The
number of deer in California is in-
creasing despite the fact that the
mountain lion each year is at least
\$50,000. The state at present has a
population of 300,000 to 400,000 deer,
according to estimates of the Cali-
fornia Fish and Game Commission.

KLANSMEN TO STAGE GREAT PARADE HERE ON MONDAY

What promises to be an impressive
ceremonial, will take place on Mon-
day night at nine o'clock when the
Danville Ku Klux Klan will hold a
naturalization ceremony at Ballou
Park following a parade of the
Knights of Danville and the sur-

FIVE ARE HELD IN CONNECTION WITH ROBBERY

One Man, Shot Five Times,
Had \$1,500 in New Bills—
Estimates of Vast Amount
Taken Range From \$100,-
000 to \$3,000,000—Be-
lieve Men Singled Out
After Hold-Up.

(By The Associated Press.)
CHICAGO, June 14.—A man shot
five times and in possession of \$1,500
in new bills was under police watch
in the county hospital today as a
suspect in connection with the hold-
up of the mail robbery Thursday
night when a Chicago, Milwaukee and
St. Paul train was held up 33 miles
north of Chicago.

The police quickly made four other
arrests and held their prisoners for
questioning in connection with the
mail train robbery Thursday night.

The wounded man gave his name
as J. H. Wayne and said he had been
shot by a woman near Hammond,
Ind. He said her name was Miss Mar-
garet Ray.

The finding of the bills and of
bloodstained automobile cushions in
the neighborhood where Wayne was
found added to the police suspicion
of his story.

Four other arrests including a wo-
man, were made at a West Side house
in front of which Wayne had been
found. He was taken to the hospital
and detectives sent to the address
where one man was seized and two
others arrested shortly afterward
when they entered the house.

One of the bandits was wounded,
supposedly by one of his own com-
panions and was carried away by the
bandits as they fled in four automob-
iles with the loot which has been es-
timated at from \$100,000 to \$3,000,-
000.

The other prisoners are Walter Mc-
Comb, his wife, Paul Wade and James
Mahoney. The police had to batter
down the door to enter the house
where they were taken. They found
two versions of the shooting, one that he
was shot by "Margaret Ray" near
Hammond, and the other that he was
wounded by a bootlegger.

Two detectives were stationed at
his bedside.

McComb and his wife offered re-
sistance, the police said, but were
quickly overpowered and handcuffed.
Wade, who said he recently came
from Tulsa, Okla., was found
hiding in a bedroom.

Mahoney was apprehended fifteen
minutes after the raid when he en-
tered the house without seeing the
detectives. He tried to escape.

Wayne had a new \$1,000 bill and a
new \$500 bill. He would not reveal
where he had obtained them. An at-
tempt will be made to trace the bills.
The wounded man was so weak
from loss of blood when found that
he collapsed in a faint.

ESTIMATES OF LOSS VARY

(By The Associated Press.)
CHICAGO, June 14.—The theory
that the automobile loads of bandits
who Thursday night held up a Chi-
cago, Milwaukee and St. Paul Rail-
road mail train at Roundout, Ill., near
here, took more than forty auto-
mobiles, is being investigated in a
search, divided their loot miles out
in Lake Michigan and singly departed
along the shore, is under investigation
today.

Estimates of the amount obtained
by the bandits will vary from \$100,-
000 to \$3,000,000. A German chief
postal inspector, believes they did not
obtain more than the lower figure,
but Larry Benson, chief of the rail-
road's police force, estimates it at
\$1,000,000. A shipment of
\$100,000 in liberty bonds destined to
the Federal Reserve Bank at Minne-
apolis is missing and other bonds tak-
en may be valued at \$1,000,000 or
more. Federal agents used in the
robbery said they had contacted \$70,-
000 to National banks in the north-
west and much eastern mail on the
train probably contained currency or
valuable.

Evidence gathered by Lake county
officials has disclosed that a cabin
launch mysteriously appeared off
Highland Park, a suburb half way
between Chicago and Evanston, when
the robbery early Thursday night
and landed about twenty men, some
of whom answered the description of
the four automobiles used in the
robbery. At dawn yesterday
the launch had disappeared.

Belief that the body of a robber
wounded by one of his fellows during
the hold-up was dumped in some ra-
vine or culvert by the fleeing bandits
started an intensive search of remote
localities in the vicinity of the rob-
bery scene last night. When last seen
his limp and bleeding body was lying
atop the heap of mail sacks in one
of the automobiles.

"If we find that body and identify
it we soon will have the bandits,"
Chief Benson said.

An unopened mail sack, containing
registered mail from Washington to
Seattle, Washington was found by a
farmer who told investigators he had
passed four speed automobiles near
the spot the night before. The pouch
is thought to contain mail from
Seattle and it is believed it was
thrown away by the bandits.

Several persons arrested as suspects
have been released.

DUNCAN DEPARTS HITCHHIKING

(By The Associated Press.)
OLEN EAGLE, Scotland, June
14.—George Duncan, veteran British
hitchhiker, is expected to leave Scot-
land, after a record record hitchhike
trip, by a ship to the United States
to help make of the Thruway
tourism.

REMOVAL PREPARATIONS

One valuable lesson at least has been taught by the election of last Tuesday and that is the prime necessity of arranging for any election well in advance and the selection of judges and clerks of election a week or more before any actual test of strength at the polls. The plan pursued for years in Danville of making eleventh hour appointment of judges and clerks is a bad one. This is a highly responsible duty and this fact was brought home strikingly on Tuesday at the climax of the heated campaign with threats of irregular proceedings in the event of irregularities being freely made. No direct or implied criticism is intended of the electoral board in this instance for and unforeseen situation arose through the illness of the secretary of the board which provided for the whole responsibility of providing for the election falling on the shoulders of the chairman. What should be done is to appoint the judges and clerks and to secure their definite acceptance two weeks before any election, call them together once or more before election day and explain to them the intricate election law giving them copies of it so that it may be studied and its doubtful points raised and determined before and not after the election thus leaving a trail of uncertainty in its wake.

ANVIL SPARKS

The kid's vacation has started. Teacher's vacation has started. Mother's vacation has ended.

When you get out beyond the three-mile limit you are liable to get into hot water.

Most of us had rather be the world's champion talker than the world's champion fighter.

Only a woman can make a fool out of a man or a man out of a fool.

These are the days the flies are following men home to have the screen door opened for them.

Being poor is no disgrace, but soon becomes very monotonous.

Before letting your conscience be your guide be sure you have a conscience.

The honeymoon ends when the furniture-store collector begins.

Every day is Decoration Day for people who wear loud clothes.

Bootlegging pays fairly good money after you work up to where you can start a drug store.

A banker has a good job. He keeps banker's hours. But we had rather have a banker's son's hours.

Being a college professor is a fairly easy life if you have a head for the business.

A window dresser is a girl who forgets to pull down the shades.

In New York

NEW YORK, June 14.—Hentz, Coachman of Brazil, South America, came to New York for adventure—and is finding it.

Eighteen years old and a son of wealthy parents, he left home with one suit of clothes and an even more meager supply of money.

He arrived in New York on a first class steamer, but he landed as a scullion, peeling onions for the cook his entire journey.

Of well educated stock Hentz speaks several languages including a fluent English.

Scoop's Colyum

DRAKE'S BRANCH June 14.—(Danville Wire)—"Scoop's Colyum" will tell the best-time story this evening.

No, I won't go to the movies tonight. Guess I'll just turn on the radio, sit back in an easy chair and listen to Paul Blackman and his Palms Royal orchestra do a lil' jamming. Let's see, the directions say, "turn on the knob, and you've found the station you want, then make yourself comfortable and enjoy a varied program."

Ab, I have it now: "Station OLIMP, Washington, N. Y. broadcasting Paul Blackman and his Palms Royal orchestra. The first number will be a fox trot, 'I Feel Like A—'"

"Eggs dropped considerably—garlic still strong—onions somewhat weak."

"Is all that I want"—a-s-s— "you have just been listening to the Fearless Quartet at Station—"

"And, ladies and gentlemen, the danger involved in not bathing at least once every—"

"Year after year I have asked the public to support me in the election to the Presidency of—"

"Ellis Island, Station III, broadcasting the famous Hungarian Rhapsody."

"Mammoth Brothers' store in Philadelphia, presenting brother Proctor in a monologue entitled, 'I wish You All Good Luck—'"

"And, my dear children, the story for tonight will be the same as the one given last night, but will not be given until tomorrow night—"

"Denver News, Denver, Colo., announcing new arrivals from Hartford, Conn.—"

"All, broadcasting new prices on monkey glands imported from—"

"—decide—decide—O la h—ha z—ah—ahh—s—concluding Mr. Blackman's concert for the evening. I hope those of you who enjoyed the concert will favor us with cablegrams and flowers. Good night."

CHARITY COVERS A MULTITUDE OF SINS BUT CURIOSITY UNCOVERS A LOT MORE!

No, Dumbells, "Helen Maria" ain't a lady's name. They've got a man on the Republican ticket for vice-president. The Doughboys called General Daves something like this enduring war.

The Flag. Of our country: "Long may it wave o'er the land of the free and the home of the brave."

In sending, D. Garnett off to school this summer Councilman Gravelly thinks they may be able to get an excursion rate, so the scheme is held up temporarily. We are in favor of the trip, Gus.

Mayor Wooding is still holding the fort and looking for the man who cast the one—te that elected him; he wants to express his thanks. Charlie Carter is sawing wood and chewing tobacco, he is a good sport and will not take his foot off the brake. We will see what we will see when the show-down comes.

Now lets all rise and sing the touching little ballad entitled, "The stormy ocean brings up more than memories of full moon to me."

Walter Pierce Tudor thinks there is reason to believe that Mr. Coolidge sometimes sighs for the good old days when he was just a plain, obscure, unworried, vice president with nothing to do but keep out of the public's way.

To become great, create.

The only kind of friend worth having is the kind you get for nothing.

The knicker women wear are sure great for getting up stairs.

No doubt Tutank-amens' name will be dragged into the oil scandal before all the facts are unearthed.

A pleasant man and his money are soon parted.

SYNOPSIS
Peter Newhall, Augusta, Ga., goes to Alaska, after being told by Ivan Ishmin, Russian violinist, he had crowned Paul Sarichef, Ishmin's secretary, following a quarrel. Ishmin and Peter's wife Dorothy, had urged him to flee to South America. A distress signal at sea, forcing his sea jacket upon him. Their launch hits rocks.

Larson's body is buried as Newhall's. Peter, rescued, finds injuries have completely changed his appearance.

Ishmin and Dorothy go to Alaska to carry Peter's body back to Georgia. Peter does not recognize Peter, who is chosen head guide. A storm strands them at the grave. Ishmin urges Dorothy to marry him, but she would first ask the spirit of her husband, whom she believes dead. They hold a séance with one of the guides as medium. She receives the message: "Change name," and believes it means to marry Ishmin.

NOW GO ON WITH THE STORY
"You want me call Paul Sarichef?" "Why, Dorothy?" Ivan whispered tensely. "He would have no message for you."

"I want him to try, just the same," the girl replied. "Can you call him, Joe?"

The native was already calling; and all of them knew that psychic energy expended in that summons was beyond their wit to grasp.

Pete's eyes blazed. "Temptation of that kind doesn't come to men of our race, unless they are perverts," he said easily. He was somewhat paler, but he hid his pipe with a steady match as he spoke. "I don't know."

"I don't know," he said easily. He was somewhat paler, but he hid his pipe with a steady match as he spoke. "I don't know."

"I don't know," he said easily. He was somewhat paler, but he hid his pipe with a steady match as he spoke. "I don't know."

"I don't know," he said easily. He was somewhat paler, but he hid his pipe with a steady match as he spoke. "I don't know."

"I don't know," he said easily. He was somewhat paler, but he hid his pipe with a steady match as he spoke. "I don't know."

HOW TO KEEP WELL

By Dr. W. A. Evans
(Questions pertinent to hygiene, sanitation and prevention of disease, if matters of general interest, will be answered in this column. Where space will not permit, or the subject is not suitable, letters will be personally answered to proper limitations, and where a stamped, addressed envelope is enclosed, Dr. Evans will not make a mistake in the return of the letter. Requests for such service cannot be answered. Address Dr. Evans, care The Bee.)

Gout in Michigan.
The prevalence of toxic gout in certain groups of young men, estimated for some in the world war caused Dr. R. M. Olin, health commissioner of Michigan, to think he had a serious health problem on his hands.

This was followed by a gutter survey of the school children of Grand Rapids, made by Dr. Olin, and by other gutter surveys in different parts of the State, all of which showed gout to be common in Michigan. This caused Dr. Olin to make gutter surveys in four Michigan counties. The counties run from one in the southeast corner of the State in a northwesterly direction to one in the northwest corner.

The surveys showed the condition to be very common. Generally speaking, the prevalence increased as the survey went northward. In the extreme north, Dr. Olin says that practically 100 per cent. of the children are affected.

While the prevalence increased generally as they went northward the increase was not uniform. For instance, in Mount Clemens only 26 per cent. of the children were affected, whereas in Romeo, 12 miles away, the percentage affected was 75.

About 100 samples of water were examined for iodine. Where the percentage of gutter was found very high, the examiners would send in a sample of water for an analysis for iodine. Also examination of the water was done from those places where there was not much gutter.

While the results of the examinations of water and the geologic surveys have not been published, in a general way Dr. Olin says the curve for lack of iodine and that for gutter prevalence run about parallel.

What is to be done about it?

The objection to giving iodine of soda in school is that the pupils do not like it. Putting iodine in public water supply is probably too expensive, since so much water is wasted. There are several objections to giving the school children iodine candy. Dr. Olin favors putting iodine in the table salt. Since some Michigan salt contains iodine, naturally, it is a matter of leaving it in instead of refining it out. The manufacturers say they are willing to do that, provided the health department will do its part to persuade the people to use salt containing a little iodine.

Not Enough Secretion.
Mrs. E. H. F. writes: Is there no cure for hot flashes? I change my night clothing three or four times during the night. They come on me also through the day. No imagination. They are very real.

You are probably deficient in internal ovarian secretion. You can be kept in ovarian balance by taking ovarian extract occasionally. It should be given hypocritically, though it may be given otherwise.

Nothing Radically Wrong.
A. K. D. writes: 1. I am 44 years old and I do office work, not very strenuous. For the last two or three months my mind has been foggy. I can't remember things. I feel as if I am feeling as well as usual. 2. Would smoking be a cause for this condition of the heart? REPLY: 1. No. 2. I do not think so.

Twenty Pounds Underweight.
K. B. writes: 1. I am 5 feet 11 inches tall and weigh only 125 pounds. I am 14 years of age. How much should I weigh? 2. I have a little lung trouble, but the disease has not been active now in over four months, but I cough a little every day. Will the cough disappear in time if I am careful? 3. How can I take on weight? REPLY: 1. A boy 5 feet 11, 16 years of age, should weigh 140 pounds. 2. If you mean you have consumption, you should see a physician or, at home, under a physician's care. 3. Stay in bed in the open air; take the open air rest cure and eat plenty of milk and eggs and good meat and vegetables.

The Cause of Chorea.
Mrs. S. S. writes: 1. Please inform me what chorea comes from. 2. Is it contagious? 3. Is it curable? If so, how long does it take to cure? REPLY: 1. It is due to an infection with the streptococcus of rheumatism. Anemia helps to cause it. 2. Yes. Many months or years.

FROG HORDES HELP
LYONS, Kan., June 14.—Moving down the armies of Hessian flies, the frogs that infested Rice County wheat fields after recent rainfalls have proved a blessing to the farmers in the vicinity.

SPIDER WEB STOCKINGS
BERLIN, June 14.—Spider web stockings, made of thread so fine that 275 miles of it would be required to make a pound of silk. The latest fad of Berlin's Danzig Fashion. The designer claims that after one dance to modern jazz music, however, the toes and heels of the stockings would be all out.

SHOP GIRLS SPRUCE
BOURNEMOUTH, Eng. June 14.—When Bournemouth shop girls began to dress better than the customers, managers of several leading stores provided uniforms for the girls to wear and a "dressing counter." The managers looked upon every frill on the clerk's dress as a thorn in the side of the buyers.

MOSQUITOES PARADISE
MAUBIN, Burma, June 14.—Maubin has the largest and most mosquitoes in the world, scientists declare. Great detachments of mosquitoes swarm out to meet every visitor. They hang in clouds over the town, the table linen and the punkah fans. Every window and crevice of the European houses in Maubin is protected by sliding curtains of iron gauze.

American collectors sent home art works valued at \$10,000.00 from Great Britain alone last year.

Social Activities

The following announcement, appearing in the *Lavonia* (Georgia) Times will be read here with considerable interest:

"Dr. and Mrs. William Wallace Cernog announce the engagement of their daughter, Miss Cernog, to Mr. Waverly Herndon Cousins, of Danville, Va. The marriage to be solemnized on the evening of July the twenty-third."

Miss Cernog has for the past year been a member of the public school faculty and has endeavored herself to many people of the community. Mr. Cousins is commander of the Danville Post, American Legion, having been honored by being elected to that post for his second consecutive term. He is identified with the Dan River Mills office force, and generally esteemed.

Visitor From Cuba.
William S. Harrison, vice-president and controller of Frank Robins Co., Havana, Cuba, is visiting friends in Danville and Caswell county. Mr. Harrison is a native of Caswell and a well-known business man and former resident of this city.

Psychology Club Meeting.
The regular meeting of the Psychology Club will be held at the Y. M. C. A. Tuesday evening, 8 o'clock, p. m. Lessons in the Master Key System, by Hanel, generously loaned to the club by W. T. Thurman, president of the Psychology Club of Richmond, will be continued. Members are requested to bring note-books and pencils.

Members of the club who did not attend last meeting will be given an outline of preceding weeks' work. The club will continue to meet throughout the summer.

Birthday Party.
Mr. and Mrs. J. S. Luther gave a lovely party at their home in Nett Road, yesterday. Mr. Luther celebrated his birthday, celebrating little daughter, Marie, celebrating her seventh birthday. Many guests were present and games were played. Refreshments were served in the dining room which was decorated for the occasion with flowers and colored candles.

A beautiful cake topped with seven candles formed a centerpiece. Clarence Grogan and Marion Weber cut the goodluck pie. A delicious ice course was served.

W. M. U. Meeting.
The general meeting of the Woman's Missionary Union of the First Baptist church, will be held at the church Monday afternoon, June 16, at 4 o'clock p. m. Circle 6 will have charge of the program.

Music at Mount Vernon Church.
Offertory-Duet, "In the Garden," Misses Elizabeth Travis and Pauline Weber.

Missionary Meeting.
The Woman's Missionary Union of the First Baptist church will meet at the church Monday afternoon, 4 p. m. A program of interest will be presented, the institution of officers being one of the features.

Annual Picnic.
The annual Sunday school picnic of the First Presbyterian church, which was to have been held last Thursday but was postponed on account of bad weather, will be held Tuesday, June 17, at Crystal Lake. Trucks and cars will be at the church at 9:30 o'clock a. m. A full attendance of the older people as well as children is desired.

Shower for Miss Lewis.
A very attractive shower was given at the home of Mrs. J. J. Jarrett, Friday night, in honor of Miss Elizabeth Lewis, whose marriage to Paul Reynolds, of Lynchburg, will take place this afternoon.

Several games were played, the first being "Advice," in which the guests had to write some advice to Paul Reynolds. After all had been read, the book was presented to the bride-elect. A game entitled "Pleased or Displeased," was played in which the guests were asked if one of the guests was pleased or displeased. The game was won by Miss Lewis to open the cedar chest. In this chest was found a number of useful gifts for the bride-elect. Very delicious ice-cream was served, golden slippers were given as favors, and a yellow and white color scheme was carried out in the decorations.

Returns to Baltimore.
Mrs. Charles L. Summers has returned to her home in Baltimore, after a visit of several weeks with her sister, Mrs. Harden Hairston, of Brattlefield and Chambers and her brother, Perryman Hall, at her old home, "Inglefield."

Col. and Mrs. Harrison accompanied Mrs. Summers to Danville, returning home in the afternoon.

To Spend Summer in Danville.
The many friends of Mrs. John Watson are glad to learn that she will be spending the summer in Danville, to spend the summer with her parents, Mr. and Mrs. P. H. Bolesau, and Mrs. George Watson.

Returned from Florida.
Mrs. J. C. Meister and daughter, Edith, arrived home last night from Fort Walton, Florida, where they have spent the three weeks with Mr. and Mrs. George Fryer, of Greensboro, at their home on the Gulf coast.

Weekly Mass of Girl's Friendly.
Seventeen members and two visitors, of the Candidate Class of the Girl's Friendly Society of Epiphany Church, in charge of Mrs. L. J. Hall, visited the city jail yesterday afternoon, carrying baskets of fruit to the prisoners. Later, the class visited the Danville Ice Company's manufacturing plant, where they were permitted to make a tour of inspection.

This class of girls who will later become full members of the Girl's Friendly are each week visiting various places of interest in order to become acquainted with locations in their own town.

Last Sunday afternoon they visited Dabney Moore, the Episcopal Home for Girls, near Peytonburg.

Married in Martinsville.
A marriage of interest to their acquaintances in Danville took place in Martinsville Thursday, June 12, at 3 o'clock p. m., at the home of Mr. and Mrs. J. W. Cheever, when their daughter, Miss Mary Cheever, became the bride of J. P. Williams. Rev. B. B. Jones performed the ceremony.

Mr. Williams has many friends in this city where she has frequently been

the guest of Mr. and Mrs. J. W. Jamerson. The groom is a well-known business man, formerly of Danville, now located in Martinsville.

Mr. and Mrs. Williams are spending their honeymoon in Washington, D. C., and after their return will make their home in Martinsville.

Personals.
—Mr. and Mrs. A. L. Gardner, Mr. and Mrs. Joe Bynum Gay and Mrs. Bynum Gay, Jr., who have been guests of Mr. and Mrs. Wade H. Pierce this week, returned to their home in Franklin yesterday, making the trip by motor.

—O. R. Meadows, of Augusta, Ga., is visiting friends and relatives in the county.

—Walter Squires is spending the day in Roanoke on business.

—Spencer Williamson, of Martinsville, is spending the week-end in the city.

—Mrs. L. M. Wagner and daughter, Elizabeth, of Jefferson avenue, left Friday for several weeks' visit to relatives and friends in Kentucky and Illinois. They will return via Asheville for a few days' stop.

—Miss Louise Evans, of Richmond, will arrive in the city this week to be the guest of Miss Eunice Pritchett.

—Mrs. W. D. Hull and son, of Dublin, Georgia, are visiting their parents, Mr. and Mrs. C. C. Crews.

—Miss Annie May Lippard, who has been the guest of Miss Eunice Pritchett for the past two weeks, has returned to her home in Richmond.

—R. Melville Fox who has been away for the past month, returned home Thursday. He has been visiting in Lynchburg and Chester, Pa., where his nephews live.

—Mrs. Eunice Reynolds and Miss Roberta Carter leave this afternoon for South Boston to visit Mr. and Mrs. W. C. Carter.

—Mrs. A. B. Roberts and children who have been visiting their mother, Mrs. J. R. Adams, on Mountain View have returned to their home at Morehead, N. C.

—W. A. Harrison, of Cascade recently injured in an automobile accident is reported to be improving.

—Horace E. Gosney, of Witt, has returned home from Hampton-Sidney College.

SIDELIGHTS ON G. O. P. MEETING

By ROBERT T. SMALL
(Copyright, 1934, by The Bee)
CLINTON, O., June 13.—An unusual gathering in many respects, this Republican National Convention of 1934 has gone down in history as the first one ever to nominate two separate and distinct candidates for the vice-presidency on two successive ballots.

The convention went on the theory that if at first you don't succeed, try again.

When they were nominating Mr. Lowden the afternoon session, the band had been playing "Your lips say no, no, but there's yes, yes, in your eyes." But the former governor of Illinois wouldn't have it that way. It proved that when he said no, he meant it. The convention was warned in advance of that fact, but some one told the delegates that Theodore Roosevelt back in 1900 had said "no, no" and then consented, so every one was convinced that Mr. Lowden would do the same thing. It was a stunning blow when he said he would not.

Then the band played, "what'll I do, what'll I do?" and the delegates shook their heads. They didn't know a convenient recess gave them a chance to orient themselves and the nomination of General Dawes followed in record time.

There have been a number of occasions when it has been necessary to replace vice-presidential candidates in the past, but this always has been done by a national committee or by an otherwise authorized group of party leaders.

Former Governor Lowden was the first vice-presidential nominee to "bust" right in the face of a convention. Even when Charles Dawes had been nominated on the third ballot, the convention decided to take no more chance with withdrawals. It passed a resolution authorizing the national committee to fill any vacancy which might occur on the ticket or to call a new national convention to fill the vacancy. A number of delegates ventured the opinion from the first that "Hell and Marie" would not decline, but the convention as a whole decided to take no more chances.

A number of parliamentarians were worried as to just how the convention was going to record its action in nominating Governor Lowden on the second ballot. For the time being he was officially the nominee of the party and something radical had to be done in a conservative convention to get rid of him. Some of the old timers thought it would be necessary to have a motion to reconsider the vote on the second ballot.

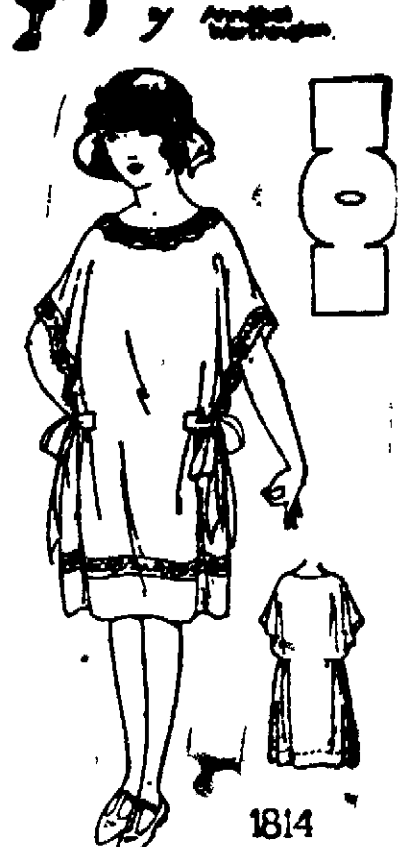

In the end the solution was rather simple. It was moved that the declaration of Mr. Lowden be accepted. This was done by unanimous vote. Then without further ado all hands were called once more and what promised at first to be a real fight between Mr. Lowden and Secretary Hoover turned out to be an overwhelming vote for the gentleman banker from Illinois.

Incidentally Illinois broke all records by having two vice-presidential nominees accredited to the State in one day.

All is not going to be clear sailing for the Republicans this fall. Every man who placed a vice-presidential aspirant before the convention announced in stentorian tones that his particular State was doubtful territory and a real battle ground, this fall. This included Indiana, Missouri, Nebraska, Iowa and Illinois. Perhaps the Republican leaders will change their minds once the campaign actually is under way, but in the meantime the Democrats will be glad to hear the good tidings.

The inevitable statisticians attended the nominating sessions of the convention and after totaling up the votes, he found that in the nomination of President Coolidge and in the eight succeeding speeches

Fashions Forecast

COOL AND BECOMING FROCK

When occasion demands something dainty and comfortable, this little, easily-made frock is suggested for a party frock for little daughter that she can make in an hour or two. If you should doubt its extremely simple construction, a glance at the diagram will convince you that the task of making is extremely simple. The pattern No. 1814 cuts in sizes 8, 10, 12 and 14 years. The 8-year size takes 1 1/4 yards 36-inch material with 2 1/4 yards of one eighths and 1 1/4 yards of one fourth inch. Price 15c in stamps or coin (coin preferred).

Address Pattern Department
Care The Bee

"frugal" outdistanced all rivals by a wide margin. Mr. Coolidge was lauded from many angles, but all the eulogizers appeared to meet on the common ground of "frugality." Apt alliteration had its rightful part in the day's proceedings, too, for it was borne in upon the delegates that Mr. Coolidge was calm, cool, careful, courteous, courageous, courteous and complete.

Governor Lowden paid for his telegram declining the vice-presidential nomination. He might easily have sent it collect, for it was an answer.

Something went wrong with the marvelous demonstration planned for Senator Jim Watson, of Indiana when he was placed before the convention as a vice-presidential aspirant. The confusion of the nominating delegates and a few scattering delegates from the other states started an uproar. They did not get an awful lot of support, however, and the demonstration did not succeed. Suddenly, when the roll call was resumed a blatant brass band crashed into the hall. The convention was startled. No one knew just what the invasion meant until the brass band, equipped with platform, burst forth into the "Banks of the Wabash." Then every one knew it was a belated boom for Senator Jim. There was a roar of approval and a conference of the delegates was held. A conference of the delegates was held. A conference of the delegates was held. A conference of the delegates was held.

The patriot who nominated Senator Jim warned his Republican brethren that the wily Democrats surely were going to nominate either a president or a vice-presidential candidate from Indiana and might carry the state unless the gates were kept by Senator Watson. Now nobody knows who is going to stop the invasion. Certainly "Hell and Marie" would not decline, but the convention as a whole decided to take no more chances.

Dr. Marion L. Burton president of the University of Michigan, who made the nominating speech for his friend, Calvin Coolidge, is a fine sort of fellow. He is a man of letters and a fine speaker, but he might, win the vice presidency by his speech were far astray. The educator has an attractive personality and he made a great hit with both delegates and spectators by casting his prepared address to the winds and going to his task extemporaneously, replacing a rather dry narrative with one rich in anecdote and personal contact with the man he was about to nominate.

He was not a politician and possessed none of the wiles of such, he nevertheless caught the old political trick of not naming his man until the last words. From a very beginning, however, the delegates and the galleries knew exactly the man he was talking of. Permanent Chairman Mondell said to that. He announced at the outset that Dr. Burton would be recognized to place in nomination "President Coolidge." From that time on the secret was out. It is awfully difficult to keep anything dark at a national convention.

The meanest man in Cleveland has been discovered. On his way to the convention Wednesday he ran out of gasoline some ten miles out of the city. A passing automobilist generously consented to share his gasoline with the stalled person in return for a ticket to the convention. It was a ticket for the fifth day. It was known in advance that he could not but three days of the sitting.

Bill Wrigley, of Chicago, the chewing gum king, got one vote for vice president on all three of the ballots taken. He is the tenacious product of William Wrigley, Jr.'s one vote stuck.

On the second vice-presidential ballot some lone delegate from North Carolina voted for former Governor Joseph M. Dixon of Montana. This so enthused a spectator in the gallery that he led himself in three rousing cheers. Some cynic suggested the enthusiasm must be Governor Dixon himself. But it wasn't.

The fox can beat like a lamb and mew like a cat.

The owl produces eggs once in a while.

HELPFUL HINTS

BROILING FISH
To broil fish split it, brush over on either side with soft butter or oil, and place on a broiler over the gas flame or a bed of coals.

KEEP MOIST
The cut slices of fruit, such as melons and pineapples, may be kept moist by turning them cut side down on a plate or by placing a piece of waxed paper over them.

DRY CHEESE
Dry cheese should be grated and kept in a covered jar. Cheese may be kept moist by wrapping it in oil paper or in cloth kept wet with vinegar.

SOFT FRUITS
Soft fruits like berries will keep better if they are taken out of the box and poured in a shallow pan and kept out of the refrigerator.

UPHOLSTERY
Upholstery can be dry cleaned with starch and whitening stirred together and applied thickly over it.

RESTORING VELVET
Raise the pile of crushed velvet by stretching over a wet cloth laid on the face of a very hot iron and brushing hard while the steam rises.

SAVES WEAR
Crumple tissue paper thickly over upholstered furniture before putting on covers. It saves wear.

CARRY "CANNED HEAT"
Here is a good suggestion for the summer camper and picnicker. Always carry along a tin of "canned heat" to set under the wood so as to start the fire. It is particularly helpful when there is a wind.

POLISHES FURNITURE
A silk duster or a smooth chamamois skin are excellent for rubbing finely finished furniture.

PRACTICAL COVERING
Nothing is more practical as a covering for the porch or summer than heavy rug which emerges triumphant from all types of weather.

SHOULD BE FRESH
Peas should be canned when they are very fresh and young and should never be permitted to stand long after shelling.

CLOVES WITH TEA
Serve a few cloves as well as lemon with your afternoon tea. Candied cherries, too, are relished by many.

SAPIRO FAILS TO WIN OVER IMPERIAL CO.

Considerable interest has been aroused in local tobacco circles over the reported failure on the part of Aaron Sapiro general counsel for the Tobacco Growers Co-operative Marketing Association to negotiate successfully with the Imperial Tobacco Company of Great Britain for recognition of the "pool." Mr. Sapiro has been for the past few weeks in Europe and recently went to London to attend a conference with officials of the British company in the hope of persuading them to treat with the "pool" and to buy tobacco from it. The first conference resulted in the discovery that Sapiro and the Imperial Company were so far apart that further negotiations were abandoned to institute legal proceedings against the Imperial Company on the charge of having established a boycott of the co-operative organization.

It is recalled that late last summer Governor McLeod and Senator Ellison D. Smith, of South Carolina, in public address singled out the Imperial Company for a broadside attack which created a sensation at the time.

The following copyrighted cablegram appearing in the New York World is quoted verbatim:

LONDON, June 14.—Aaron Sapiro, general counsel for the Burley, Bright and Dark Tobacco Growers' Co-operative Association, calls for New York on the Berengaria Saturday after a series of negotiations in April, Rome, Vienna, Prague and England regarding European tobacco sales. He is accompanied by other officers of the three organizations.

The upshot of the negotiations, Sapiro declared today, was that expressions of sympathy and support were obtained from officials of the French, Italian, Austrian and Czechoslovak government tobacco monopolies.

However, negotiations with the Imperial Tobacco Company of this country broke down after one meeting. Sapiro said he and his colleagues are fighting against the present activities of the British company in the United States, which they charge with flouting the anti-trust laws and with engaging in a series of legal proceedings against the company in the United States.

The Americans had what Sapiro described as a satisfactory and successful conference here with representatives of wholesale co-operative societies of Great Britain.

NEGRO HELD FOR SENDING OBSCURE PHOTOS BY MAIL
LYNCHBURG, Va. June 13.—As the result of mail from Eulon W. Hamlet, negro, 2310 Bedford Avenue, intercepted by post office authorities at Minneapolis and which is alleged to have contained obscene pictures, Hamlet was arrested here today with Lizzie Scott, negro, with whom he has been living for some time at the address indicated.

Hamlet was held for some time at the address indicated.

Hamlet was held for some time at the address indicated.

Hamlet was held for some time at the address indicated.

WANTS DIVORCE

Lysiane Bernhardt, grand-daughter of the late "Divine Sarah," who is seeking a divorce from her author-husband, Louis Verneuil, of Paris, and incidentally is writing a novel and preparing for the stage.

FASHION NOTES

FINE TUCKS
Fine tucks are used instead of pleats on the newest silk frocks—they are much more practical while giving practically the same effect.

EARRINGS
Steel colored pearls are very much liked for earrings, particularly if they are very large.

TWO ROSES
Two roses on the shoulder, one pointing backward and one forward, is an interesting effect on an evening gown.

SILVER SCARFS
Scarves of silver cloth, painted in delicate colors, give an opalescence effect that is most unusual.

BATHING SUITS
Coat bathing suits tie at the side and copy the good features of the coat dress.

RUBBER LINED
Rubber lined bags in which to carry the bathing suit come in envelope shapes and have monograms in color.

STRAW HATS
Very close straw hats are given the appearance of a helmet by the use of pleated sections of black gros grain ribbon.

SILK FROCK
The printed silk frock is sometimes just a straight sleeveless tube, to be worn with a short cloth coat.

PLEATED SKIRT
The pleated skirt of this season has a plain panel in front and back and fine knife pleating at the sides.

BEADED CAPES
Beaded capes for evening wear are very elaborate in appearance and amazingly low in price.

EVENING FROCK
The newest evening frock has its wing sleeves draped on just one side and the other arm is left quite free.

COLOR COMBINATIONS
The combination of black, white and red is popular not only for street frocks, but for bathing suits as well.

PRACTICAL DRESS
A practical dress for hot days is the jumper of linen which opens low in the front to disclose a blouse of pleated batiste.

PAJAMAS
The coats to the smartest pajama outfits are very long and the trousers are attached to a top similar to that of a slip.

WEAK, RUN DOWN AFTER SICKNESS

Lydia E. Pinkham's Vegetable Compound Made Mrs. Dube Well and Strong

E. Hartford, Conn.—"After a severe sickness I was so weak that I could not do my housework. My mother told me to take Lydia E. Pinkham's Vegetable Compound. The first bottle helped me so much that I took six more bottles and felt fine. I have just given birth to a baby girl and am feeling strong and well. So different from the way I felt before. I am taking the Vegetable Compound right along while nursing. The baby seems to be in good health, and my friends say they see a big change for the better in me."—Mrs. EDGEE DUBE, 59 Woodbridge Street, East Hartford, Connecticut.

The Vegetable Compound is a splendid medicine to bring back health and strength. Many mothers have found this true, and did Mrs. Dube. Ask some of your neighbors and friends, for there are women everywhere who know by experience the value of Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham Medicine Co., Lynn, Massachusetts, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

The Tangle

An Intimate Story of Innermost Emotions Revealed in Private Letters

NIGHT LETTER FROM LESLIE PRESCOTT TO JOHN ALDEN PRESCOTT

Leaving for home tomorrow. Have found a wonderfully beautiful black lace shawl. Do you think your mother would like it? It is very expensive and I would not care to bring it to her if I were not sure. Please tell Ruth I have executed her commissions, got everything she wired for yesterday. The family are all leaving for Pittsburgh tonight and I am going to the theater with Edgerton Santley. Are you jealous of your loving LESLIE?

Day Letter From John Alden Prescott to Leslie Prescott:

Of course I'm jealous. Do you think it's treating me right? Why didn't you come home last night when I'm waiting so impatiently for you? Of course mother will like the shawl but don't get too extravagant. Give Ruthly my message. Believe me, I shall wait impatiently till I see your face.

Lovingly, JACK.

Day Letter From Mrs. Mary Alden Prescott to Leslie Prescott:

Jack tells me you want to buy me a Chantilly lace shawl. I should love it, but do not be too extravagant for your old mother. While you're buying the shawl will you buy something for me to give to you something you want very much. I will pay you for it when you return. MOTHER.

Wire From John Alden Prescott to Sydney Carton:

Leslie will be home day after tomorrow. Come on over any time after that. Am glad that at last I am going to have my oldest friend in my home. It will make you envious, old fellow, for I shall give you a very correct indication of how to be happy though married. JACK.

Wire From Priscilla Bradford to Mrs. Prescott, Sr.:

I am in the city, dear Mrs. Prescott, and would like very much to call upon you if you would like to see me. Have not been very well. I hear you are in splendid health and very much in love with your grand child. Will you answer immediately if you care to see me? PRISCILLA BRADFORD.

Wire From Beatrice Grimshaw to Sally Atherton:

Would you like me to visit you for a week or two? Dick Summers will be in your city next week and I thought I would meet him there. If it is not convenient he is sure to tell me. You and I are too old friends to stand on ceremony. You may tell Leslie if she is home that I will spend part of the time with her. BEATRICE GRIMSHAW. (Copyright, 1924, NEA Service, Inc.)

AUTO TABS

CLOSED GARAGE FATAL
It took 1.5 per cent. of carbon monoxide or exhaust gas in a closed garage to kill a dog, in a test conducted recently by the Bureau of Mines. This amount was produced in 30 minutes of idling.

CAR STEERS SIDWAYS
A London inventor has designed an auto that can run sideways across a road, straddle a ditch, climb an eight-inch curb and turn in a 35-foot circle. Each wheel is independently attached to the chassis.

CROSSING DANGEROUS
Nearly 20 per cent more persons were killed or injured in grade crossing accidents in 1933 than met mischance there the year before. The toll \$246 or injured mounted last year to \$382.

TAXIS ARE LIMITED
When New York police barred more than 1000 taxis from "cruising" for passengers on Fifth Avenue, the cabs took to Broadway. Now the police are trying to devise a means to stop the congestion along that thoroughfare.

THEATER "SEATS" AUTOS
Patrons attending the Forum Theater at Los Angeles by auto can get definite parking space for their cars. The stalls for the autos are numbered and patrons buy tickets at 10 cents each and can park and see the show within five minutes.

SPEEDWAY IN FRANCE
France is to get its first motor speedway, near Marseilles. Heretofore, racing in France has been across country.

Nearly 500 companies are insuring automobiles in this country. There are more than 50,000 public garages in the United States.

Auto production used more than \$300,000,000 worth of steel in 1933.

Large American taxi company is starting a branch in Africa.

There is no way of crossing Glacier National Park by auto.

Last year about 300,000 autos entered the national parks.

Congress has appropriated \$7,500,000 for improvement of roads in the national park areas.

Mount Rainer National Park has only 30 miles of highway available for auto travel.

Auto manufacturers are reporting an increased demand for balloon tires.

Since the war 60 railroads have installed gasoline-driven railway cars in local service.

More than 200,000 autos were stolen in 25 "key cities" in the last six years.

Since 1916, western states, with federal aid, have spent \$28,828,800 in building approach roads to the national park areas.

Twenty per cent. of the brakes in use are defective, say auto engineers.

Three-fourths of all cars sold retail for less than \$1000.

Nearly 2,000,000 persons are directly employed in automobile work.

Light makes of autos predominate in farming areas.

Thirty-five cities in this country have reduced their motor fatalities.

There are nearly 44,000 auto dealers in this country.

Motor vehicles ranked second in commodity exports in 1933.

Australia was America's leading motor vehicle customer in 1933.

Connecticut manufacturer has a wire fence for keeping auto drivers from going over precipices.

More than half of New Zealand's 44,000 miles of highways are hard surfaced.

There are almost as many motor vehicles in the United States as there are telephones.

States that have highest rank according to income also are highest in motor registrations.

City population of 56 per cent. own 70 per cent. of the autos in the United States.

There are fourteen different kinds of taxes that some taxi companies have to pay.

More than half a million motor trucks, exclusive of those in this country, are transporting goods in all parts of the world.

During 1933, 25 per cent. more was spent in maintaining old cars than in buying new ones, says an auto equipment man.

MINNEAPOLIS, Minn., June 13.—Liberty bonds valued at \$150,000 which were consigned to the Federal Reserve Bank here were a part of the loot stolen by bandits during the robbery of a Chicago, Milwaukee and St. Paul train near Chicago, Thursday night it was revealed here today.

USED CARS TESTED BEFORE RESALE

CHICAGO, June 14.—A way to solution of the used car problem, which has been worrying automobile dealers, is seen in the establishment here of the Automobile Testing Laboratory.

In this institution, used automobiles are tested so thoroughly that almost an exact valuation can be placed on the car. At the same time the laboratory is ready for the following services:

1. Advising the auto service station as to just what is wrong with a car sent to it for overhauling.
2. Giving prospective tourists a decision on whether their cars will stand a long drive.
3. Furnishing the used car buyer with such complete and accurate information about the car that there is no doubt as to what is being bought.

A New Idea.

The idea of this kind of laboratory originated with Thomas P. Hay, former president of the Chicago Automobile Trade Association. Three-fourths of the cars sold were used cars, and abuses had crept in to such an extent that a way to have the dealers and assure the public of good service had to be found. The testing laboratory was the result.

At the head of this institution is Professor F. E. Edwards, chairman of the technical committee of the American Automobile Association and member of the Society of Automotive Engineers. With him, in charge of the electrical testing, is Homer J. Rowling, ignition engineer.

Now, any car brought into the laboratory is sent through the following tests:

1. First the chassis is tested for dilution, indicating probable condition of cylinder walls, pistons and rings.

Nothing Overlooked.

Then the starter is tested and the rest of the ignition connected with an electrical testing apparatus. This covers everything connected with the ignition system. And the condition of each part is recorded.

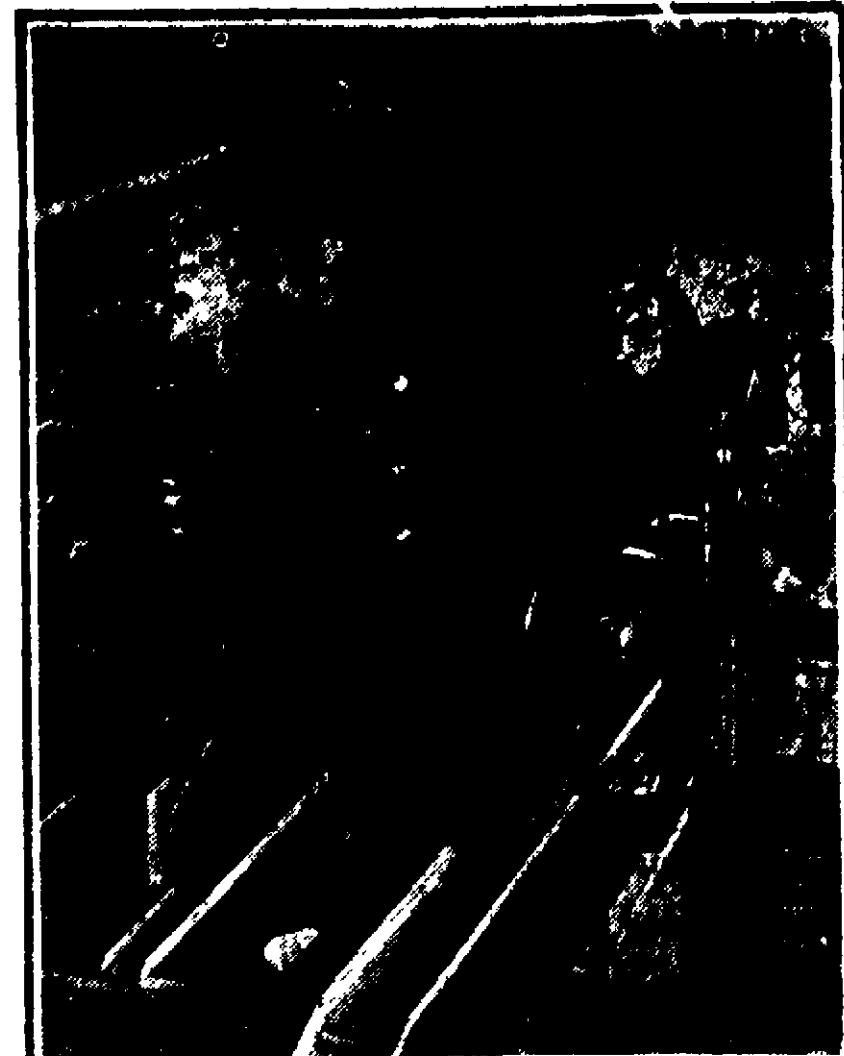

The battery gets an inspection.

Then, on a trestle, the car is tested for brake control, loss in power, gasoline consumption, condition of pistons and cylinders, slippage of clutch and other important points.

All this is done without removing the cylinder head. Special instruments, like the flowmeter, tachometer, gasometer and other devices tell the story just as effectively.

Diagnosis.

Besides, the car is inspected for frame, body and other superficial repairs.

AUTO BEING TESTED AT THE CHICAGO AUTO TESTING LABORATORY. MAN AT LEFT IS TESTING THE IGNITION. FOREGROUND, TWO MEN WITH GASOLINE INTO CRANKCASE OIL. MEASURING LEAKAGE. ATTACHED BETWEEN CAR OIL BACKGROUND, FLOWMETER, TACHOMETER, GASOMETER AND ENGINE TO DE-D AND RATE OF MILES PER GALLON.

leaves a fair valuation on the used car, and leaves it to the dealer to abide by this decision.

Similar tests and reports are made to dealers who receive cars for their customers for general overhauling. There is no more need for the service man to make a superficial survey, because the laboratory's test is all inclusive.

ENGLAND RATIFIES TREATY WITH MESOPOTAMIA

(By The Associated Press.)

BAGDAD, June 13.—(Jewish Telegraphic Agency)—The supplementary agreement between Great Britain and the government of Iraq (Mesopotamia), based on the treaty signed on October 10, 1922, has been unexpectedly ratified by a vote of 38 to 25 in the Mesopotamian parliament. Eight members abstained from voting.

The agreement, as signed April 30, 1923 and published here today, treats of the problems of the military defense of the country, its judicial status and the financial arrangement between the mandatory power and the government of Iraq.

The agreement provides that both governments recognize the principle that the government of Iraq shall, not later than four years from the date of its ratification, accept full responsibility for the maintenance of order and the defense of the state of Iraq from external aggression.

SMITH WILL PROBABLY REJOIN FELLOW FLIERS

(By The Associated Press.)

HONG KONG, June 13.—Persons competent to judge do not apprehend that there will be any difficulty to prevent Lieutenant Lowell H. Smith, commander of the American round-the-world aerial expedition, from continuing around the globe with the other fliers who have reached Four-ane, Indo-China. Smith was forced down near Hui, Annam, by motor trouble.

However, as there is no suitable equipment where he landed with his mechanic, Lieutenant Leslie P. Arnold, some delay is expected before they can install a motor and start on their landing place is about 530 miles from Saigon, or one day's run for the American destroyer which is to convey a new motor to them.

Smith's engine has given him serious trouble on three of the six stages of the journey since it was installed at Kasumigaura, Japan.

FOREIGN COMMENT

DAWES NOMINATION

(By The Associated Press.)

BERLIN, June 13.—The Zeit, the organ of foreign minister Stresemann, commenting on the nomination of General Dawes as the Republican candidate for vice president of the United States, said:

"The nomination of General Dawes has programmatic significance. Undoubtedly one may see in it the unconditional endorsement by the Republican party and the president of the work accomplished by the expert committee and of the economic political program evolved in their report."

"Should the Republican party remain in power, Germany may expect that the new Coolidge regime will feel bound unconditionally to carry out the conditions of the report."

POWER Plus—

The World's Largest Producer of Quality Automobiles

—plus extraordinary riding comfort — the comfort that comes of correct design; scientific balance; plenty of room in both the front and rear seats; deep, luxurious cushions and long, strong, resilient semi-elliptic springs.

—plus instant get-away, smooth, vibrationless performance at all speeds; a feature due to a specially designed crankshaft, machined on all surfaces — a feature found in no competitive car under \$2,500.

—plus long life and dependability, due to four large crankshaft bearings, carefully

fully precisioned cylinders and pistons, perfectly balanced reciprocating parts, and specially presorted Studebaker steels.

—plus obvious quality in every detail: hand-tailored top and side curtains; lasting, durable, genuine leather upholstery. Carefully selected fittings, lustrous black enamel finish.

These are a few of the "plus" features that make the Studebaker Light-Six an investment—not merely an expenditure. A car of recognized value that commands, at all times, the top price and ready sale in the used car market.

CURTIN HEADS LUMBERMEN

(By The Associated Press.)
CHICAGO, June 13.—Harry B. Curtin, Clarkburg, W. Va., was elected president of the National Hardwood Lumber Association at its final session here today. The next convention city will be announced in the fall.

To The Farmers of The Old Belt of Virginia and North Carolina.

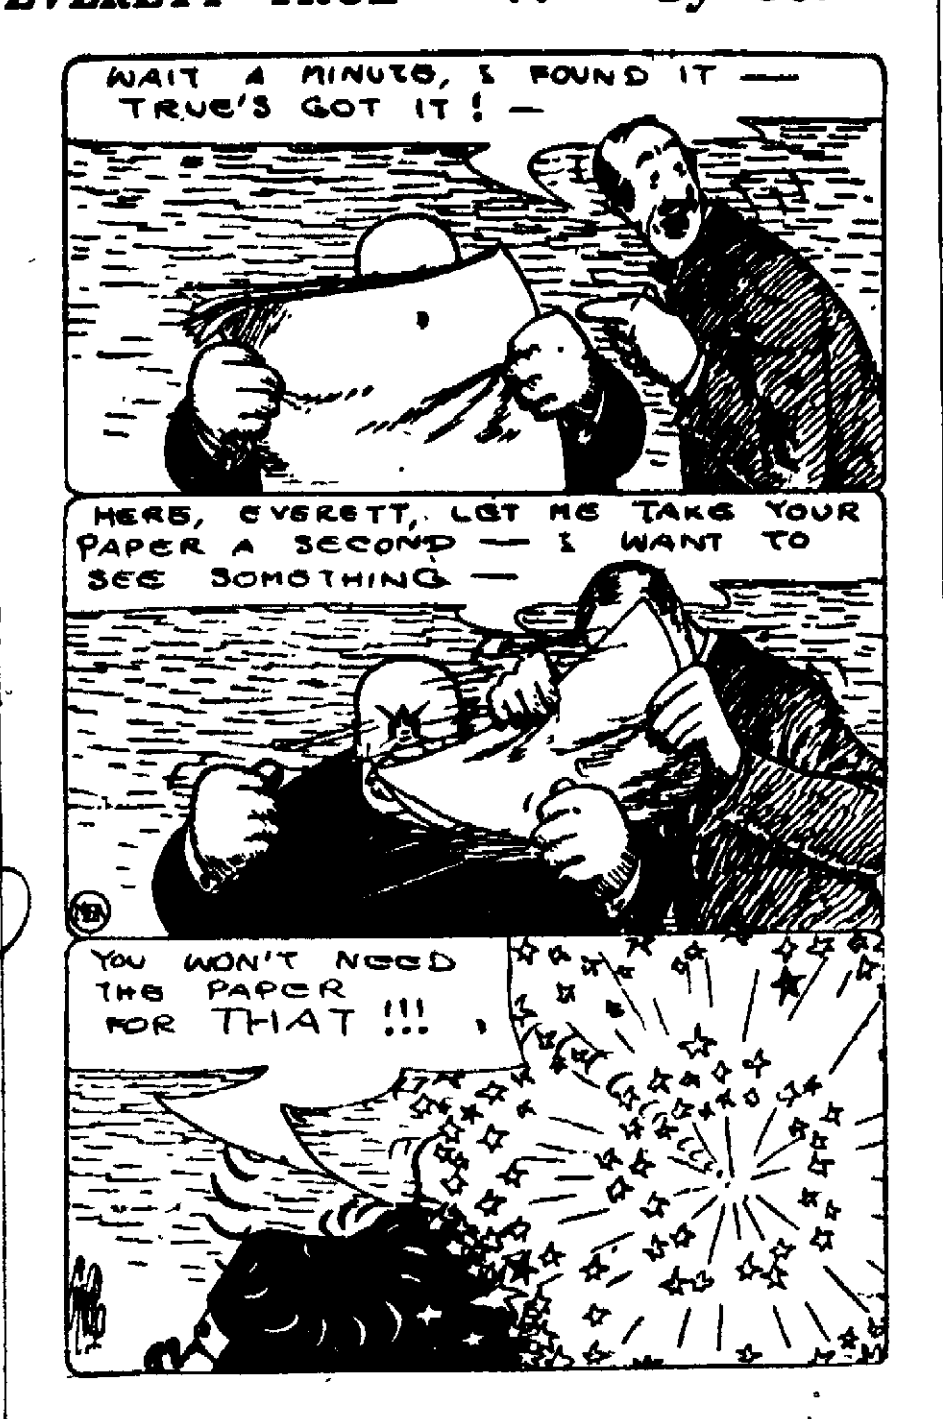

We are in a position to make loans on your Participation Certificates in the Tobacco Growers Co-operative Association to the extent of one-half (1/2) of your first payment on the 1935 crop.

Bring your "P. C.'s" to us or get your local Warehouse Manager or Banker to fill out the "Notice of Assignment" and forward same to the Tobacco Growers Co-operative Association at Richmond, Virginia—sending note for one-half your first payment and Participation Certificates to us here. We will mail you check when the assignment is returned from Richmond.

We can also make loans for six or nine months where a financial statement is given which will enable us to rediscunt the paper with the Federal Intermediate Credit Bank of Richmond.

THE GUMPS

SHOOT IT ALL

A POOR MAN NEVER KNOWS ALL THE TROUBLE HE CREATES BY NOT HAVING TO FIGURE UP HOW MUCH HE IS WORTH—ALL HE HAS TO DO IS PUT HIS HAND IN HIS POCKET TO GET THE CORRECT ANSWER—BUT A WEALTHY MAN LIKE MYSELF MUST BE A HUMAN ADDING MACHINE TO KEEP HIS ACCOUNTS STRAIGHT—I FEEL SORRY FOR A POOR GUY LIKE ROCKEFELLER—

WELL, THE OLD BALANCE SHEET SHOWS OVER \$163,000.00 IN CASH AND OUTSTANDING BONDS WHICH IS NOT SO BAD FOR A FELLOW WHO LANDED IN THIS TOWN WITH A LOT OF AMBITION AND TWO BURN COLLARS—THE PEOPLE OF THIS COUNTRY MAY INSIST THAT I RUN IN THE PRESIDENTIAL RACE AND BEFORE I START I WANT TO MAKE SURE I HAVE PLENTY OF CASH—

RUNNING FOR PRESIDENT IS A BIG JOB—IF I START I WON'T BE A PIKER—I'LL SHOOT THE WHOLE BANKROLL IF NECESSARY—I'LL NOT ENTER THE RACE UNLESS I AM SURE I HAVE A CHANCE—BUT IF I DO START RUNNING THE GUY WHO BEATS ME WILL HAVE SURE FEEL NINE YEARS AFTER THE RACE—

LAUNDRING DE LUXE

Is what we call our work, and our many customers agree with us. It really costs no more than home washing and gives you far better results in the end. Dainty women's lingerie as well as men's shirts and collars are well laundered by us, at moderate rates.

For Wet or Damp Wash Laundry—Phone 921.

PHONE NO. 921

Baron On Trial For Treason

By MILTON BRONNER

BRUSSELS, June 14.—Belgium is having the greatest sensation it has experienced since the Germans invaded the little state. Baron Coppee, the Rockefeller of the country, the great captain of industry, the multimillionaire, has been haled into court on a charge of treason.

BARON COPPEE

Fancy it—this man who lives in a palace, who has thousands upon thousands of employees, is sitting up on the bench of the accused in the Assizes Court of Brabant!

"Prisoner, stand up! What is your name?" demands the stern judge. "Eugene Narcisse Joseph Coppee, Baron Coppee."

"Your profession?" "Business man." "Your residence?" "Brussels." "Sit down, Coppee!"

Thus begins the first act of a court drama, expected to last two months, so many are the witnesses, so multiple the documents to be gone into. Shortly after the armistice accusations were formulated against Coppee, but they were dropped for want of proof.

Then the Socialist newspapers took up the cry and just when Coppee was getting ready to sue them for libel, the state itself took new action against the magnate. It was claimed that new documents, left behind by the Germans when they evacuated Belgium, had given the government damaging evidence.

The act of accusation in the present trial consumed three days of solid reading. It consisted of 180 pages of printed text, which set forth the allegations that Coppee kept his furnaces and retorts working full time during the war; that he delivered benzol, coal tar and oils to the Germans by thousands of tons; and that he acted freely, voluntarily and knowingly.

In delivering these materials to the Germans the state claims he furnished war materials to the enemy. The benzol Coppee is alleged to have delivered to the Germans could be used not only for the manufacture of aeroplanes but also for the manufacture of explosives for millions of shells used against the allies.

MORRISON WILL ASK FOR SPECIAL SESSION

(By The Associated Press.) RALEIGH, N. C., June 13.—A meeting of the council of state has been called for next Monday and Governor Cameron Morrison at that time will request power of the council to

summon the general assembly in extraordinary session.

The special session will be called, if authority is granted, to handle the report of the state ship and water transportation commission. Governor Morrison announced tonight. Confident that authority would be granted, and that the special session would handle the matter favorably, Mr. Morrison added to his announcement the statement that he would stomp the state in favor of terminals and opening of the state waterways before the question is submitted to the voters in November. It is the governor's plan to request the general assembly to vote favorably on the matter subject to the approval of the electorate in November.

MOON LIKE DRIED MUD LONDON, May 14.—The moon's surface is the color of dried mud, according to F. J. Hargreaves, a member of the British Astronomical Association, who has perfected a process of direct color photography. He says the surface of the moon can also be likened to weathered, dirty concrete.

THIRTIETH ARTICLE

Government Bonds. Bonds may be classified under four general heads. First there are government and municipal bonds. Second come the obligations of railroads, third those of public utilities, and fourth those of industrialists. A well-balanced list will contain representatives of all these classes. There are advantages and disadvantages connected with all four. The difference between the government issues and the other three is more marked than are the distinctions among the rest. Generally speaking a government bond has no specific security such as is back of a railroad or an industrial corporation issue. There are a few foreign government issues, mostly of countries of relative financial weakness, which are a specific lien upon certain custom revenues or internal receipts but these are the exception. For the most part a government bond depends for its standing solely upon the credit of the government. So when one speaks of the safety of any particular government issue what is meant is the financial stability and the reputation for meeting its obligations of that particular government. The only two points to be considered in the case of a government bond are the ability and willingness of the borrower to make payment of interest and principal at the appointed time. Everything else may be disregarded. Now it is at once apparent there is no nation on earth that stands so high in both of these respects as the United States. Liberty bonds, therefore, demand the highest price in all the market, and one is insane enough to doubt that the pledged word of this government will be kept and everyone recognizes that there is no other country with such enormous resources back of the pledge. Apply these tests to the government bonds of other nations and you have a guide to their investment rating. You will find that Canada and Great Britain rank next to the United States with such countries as Holland and Switzerland not far behind.

(Mr. Hughes' thirty-first article will appear in The Bee next Monday.)

TODAY'S Washington LETTER

By HARRY B. HUNT

WASHINGTON, June 14.—How will the Democratic convention react to eloquence?

That is the question friends of two of the dark horse possibilities are asking. For on the oratory of one and the same speaker depend to a very great extent the fortunes of the convention and the presidential entries from the Buckeye State.

James M. Cox, Democratic nominee in 1920, will have behind him a delegation from Ohio instructed to fight for his nomination for a second chance at the presidency.

None of these delegates believes Cox stands any reasonable chance of nomination.

"Lightning," they opine, "doesn't strike twice in the same place." When reminded of Bryan and his three nominations, they switch their metaphor and say that "Bryan is the only Democratic cat with nine lives."

And yet, behind this skepticism, there flickers a faint hope that the unexpected may happen. This hope is kindled by the belief that Cox will be the most eloquent and appealing utterance to be made at the convention.

Cox will be placed in nomination by his fellow-Ohioan Newton D. Baker, former secretary of war.

Baker is a small man physically, but a mighty orator. He more than any other Democrat of today, has the "gift of tongues."

Compelling, forceful, appealing, there is a persuasive quality alike to his argument and his logic that moves his hearers.

On this speech, more than on any other factor, rests Cox's chances for a "comeback." But even if he does not win, he is a long shot. Frankly, they doubt that it can be done.

The most rapidly inflating boom of the immediate pre-convention days, however, is that for Senator Charles McNary of Oregon.

Glasse of Virginia combines certain elements of strength, politically, that put him well up in the

list of likely "compromise" candidates.

As a member of the Wilson cabinet and a champion of Wilson policies he would hold the favor of a large part of the convention. He would be acceptable to the moderately progressive or mildly conservative groups in the party.

On the other hand, Glass would be wholly acceptable to "big business" and "the interests."

This would be due not so much, perhaps, to the belief that he would lean unduly in their direction, but to the fact that they already know where he stands. They could be no doubt as to his attitude on the majority of questions that might arise.

As chairman of the House committee that wrote the federal reserve act, and as secretary of treasury, they have had ample opportunity to dissect, analyze and classify him. And he is down in their books as "satisfactory."

"As a safe and sane" candidate, one that would not rock the boat of the apple-carriers, the conservative are carefully refraining from throwing any rocks at Glass.

Gaston Doumergue Elected Successor of Pres. Millerand

(By The Associated Press.) VERSAILLES, France, June 13.—Gaston Doumergue, president of the Senate, today was elected president of the Republic of France in succession to Alexandre Millerand, who resigned on Wednesday because of the opposition to him in parliament.

The booming of a cannon at 4:30 o'clock this afternoon announced the solution by the Senate and the chamber of deputies, gathered together in national assembly, of one of the most political crises ever arising from the elections.

The choosing of Doumergue as chief executive took place in the presence of the usual throng of invited notables, who bruiser one another's ribs in the

The REFEREE

BY ALBERT APPLE.

WEDDING

From the ancient Egyptians we get our custom of the wedding ring and the bridegroom's promise (usually deceptful): "With all my worldly goods I thee endow." So says Howard Carter, who dug King Tut out of the sand and oblivion.

The wedding ring of modern times is a survival of the seal to the bridegroom's treasure chests. This seal was handed to the bride to signify 80-50 ownership.

We still use the ring. But the struggle to make a living is so intense that few bridegrooms have any treasure chests. These come later—very occasionally.

VALUES

A coal operator kicks because a penny, which will buy only one stick of gum, will purchase an average of 216 cubic inches of coal containing 147,000 British Thermal Units of heat.

But that's nothing to the heat generated by a used stick of gum when we step or sit on it. This heat, generated in anger, will, no doubt, be put to work as soon as they get how to conserve the energy wasted when a cog wags its tail.

CANADA

In a year we have sold Canada 501 million dollars worth of goods and bought from her 431 millions.

The balance in our favor isn't as important as the fact that trade between the two countries is increasing steadily. Twelve per cent a year is the gain. And Canada is one of the very few countries where we are sure of getting our money.

It's no accident, then, to sell to an evident dead-beat.

(By The Associated Press.) VERSAILLES, France, June 13.—Gaston Doumergue, president of the Senate, today was elected president of the Republic of France in succession to Alexandre Millerand, who resigned on Wednesday because of the opposition to him in parliament.

The booming of a cannon at 4:30 o'clock this afternoon announced the solution by the Senate and the chamber of deputies, gathered together in national assembly, of one of the most political crises ever arising from the elections.

The choosing of Doumergue as chief executive took place in the presence of the usual throng of invited notables, who bruiser one another's ribs in the

list of likely "compromise" candidates.

As a member of the Wilson cabinet and a champion of Wilson policies he would hold the favor of a large part of the convention. He would be acceptable to the moderately progressive or mildly conservative groups in the party.

On the other hand, Glass would be wholly acceptable to "big business" and "the interests."

This would be due not so much, perhaps, to the belief that he would lean unduly in their direction, but to the fact that they already know where he stands. They could be no doubt as to his attitude on the majority of questions that might arise.

As chairman of the House committee that wrote the federal reserve act, and as secretary of treasury, they have had ample opportunity to dissect, analyze and classify him. And he is down in their books as "satisfactory."

"As a safe and sane" candidate, one that would not rock the boat of the apple-carriers, the conservative are carefully refraining from throwing any rocks at Glass.
